

REFILL CARTRIDGES & LEADS

Writing comfort also applies to refills and particularly to the quality of the inks chosen by Caran d'Ache. A strict flow control ensures smooth, even handwriting with clean lines, in a large range of colors, over a long period. It is a technology that meets the very highest quality standards, the only standards recognized at Caran d'Ache.

FOUNTAIN PENS

To satisfy the writing preferences of as many people as possible, Caran d'Ache fountain pens can be fitted with a piston ink pump or can accept ink cartridges.

ROLLER PENS

Roller pen refills are produced in a similar way to the Goliath cartridge but contain a more fluid ink. The result is a level of writing comfort that is almost identical to a fountain pen. Roller pens can also accept fibre tip cartridges available in medium and fine sizes.

BALLPOINT PENS

Caran d'Ache ballpoint pens are also carefully designed to provide great writing comfort. They are fitted with the famous Goliath giant cartridge that has the writing capacity to cover 600 A4 pages ! To make it a particularly easy refill to use, the ball is fitted into its seat with great precision and its stainless steel and tungsten carbide composition enables it to lay down intense, regular lines on the paper. It is available in three writing widths: fine, medium and large.

MECHANICAL PENCILS

Caran d'Ache expertise extends to mechanical pencils. They take leads of 0.5 mm or 0.7 mm which are advanced by a push button that is particularly easy to operate. Since the company is very familiar with the needs of artists, they are not forgotten : a choice of 2 mm colored leads is available for them.

- ◆ Ink conforms to ISO 12757-1-2 standards
- ◆ Caran d'Ache ballpoint pen cartridges have a stainless-steel tip housing a rotating ball made of tungsten-carbide, a metal alloy as hard as a diamond
- ◆ Highly precise assembly of the ball into its seat guarantees regular and smooth writing
- ◆ The ink flow of each cartridge is tested
- ◆ Caran d'Ache leads have a high resistance to breakage and provide smooth writing action
