

# FULL BLENDER - BRIGHT

**Caran d'Ache has discovered the secret of adding new life to any drawing with the introduction of the FULL BLENDER - BRIGHT drawing tool.**

Caran d'Ache, Maison de Haute Ecriture, demonstrates its mastery of color once again with the launch of its **FULL BLENDER - BRIGHT** drawing tool. This latest innovation is the product of two years of research and development in

the company's Geneva workshops. It is produced with Caran d'Ache creative expertise and it's "Swiss Made" so you know you are getting the best. Each piece is a unique medium in a hexagonal pencil shape, offering countless opportunities for applying different techniques. Artists of all kinds will find it can bring an extra dimension to their work by creating a brilliant finish that produces drawing with a more painterly appearance.

The **FULL BLENDER - BRIGHT** drawing tool is a colorless oil/wax medium for blending, dry mixing and intensifying colors. This single tool combines the mixing and unifying properties of a blender with a burnisher that consolidates and adds gloss. When applied over color pencils or watercolor pencils the pigments become even more **lightfast** and watercolor pencils become permanent (**water-resistant**). It has a hexagonal shape with a natural finish and woodless design. It's economical to use even on large projects, because 100% of the blender is available for use. It is a unique artists medium that opens up infinite technical possibilities and is ideal for use with Caran d'Ache color pencils, graphite and wax pastels.

**The FULL BLENDER - BRIGHT is intended for creative professionals, art students and amateur artists.**

## Technical Description:

The Caran d'Ache **FULL BLENDER - BRIGHT** is a single accessory for creating multiple effects:

**GLOSS EFFECT:** This oil/wax medium adds brilliance to the colors and gives the work a wonderful sheen. After polishing, the drawing takes on an extra dimension that brings it close to the look and texture of painting.

**MIXING / BLENDING:** Unifying colors, blending colors, and mixing them to increase their softness or intensity, are just some of the possibilities offered by this unique drawing tool.

**PROTECTION:** The FULL BLENDER - BRIGHT can be used to make areas of a color pencil drawing even more lightfast. It can even increase the lightfastness of a watercolor drawing created with water-soluble pencils like Supracolor Soft.

**VERSATILE USE:** It can be used as a long flat edge, making it possible to work with its edges and cover large areas with its flat surfaces. Sharpening it like a pencil will produce a fine strong point making it perfect for detailed work. Works great on a wide range of materials including paper, cardboard, fabric, wood, pottery and stone.

Packaged on a blister card with two pieces, the **FULL BLENDER - BRIGHT** drawing tool is recommended for use with Luminance 6901, Pablo, Supracolor Soft, Swisscolor, Fancolor, Neocolor I, Neocolor II and Graphite Line products.
