849 Caran d'Ache + Nespresso - Edition 2
The marriage of Swiss design and recycling

Following the success of the first edition, Caran d'Ache is continuing their collaboration with Nespresso to create the second limited edition of their iconic ballpoint pen, made with aluminium from recycled coffee capsules. The two world-renowned Swiss companies remain committed to their values of innovation, design quality and the protection of our environment.

This year, the deep green and satin-smooth 'India' capsule has been chosen to envelop the body of the pen as a symbol of sustainable development. This second edition illustrates the technical flair in creating an exclusive alloy from the aluminium of recycled coffee capsules, without compromising the intrinsic quality of the iconic Caran d'Ache ballpoint.

This Caran d'Ache ballpoint pen, in both its bespoke elegance and sustainability, will be irresistible to those who own a 1st edition instrument, as well as the environmentally conscious among us, and even those who are simply in search of a beautifully unique gift.
