

## Caran d'Ache: LUMINANCE 6901

- Created for professional artist, designers and illustrators
- Complies with **ASTM D-6901** the international standard for lightfastness
- **76 colors** in highly concentrated pigments, available in sets and separate colors
- Permanent, water-resistant leads that lay down smooth.
- **3.8 mm leads** have high pigment concentration for bright and intense colors.
- Highly recommended for mixing, blending, shading, burnishing (with or without the use of white pencils) and gradations.
- Uniform color lay down with no "Wax Bloom"
- The round barrel features 8 ply construction for maximum strength and straightness.
- Constructed with premium grade California Cedar.
- Certified: FSC, Forrest Stewardship Council.
- Smooth lead requires the use of a sharp, high quality pencil sharpener.

- 4.) Brilliant pencil cap is true to the color of the lead

## Techniques:

### Artist's secrets

Nicole Caulfield realizes a technical composition with 3 of Caran d'Ache complementary leads: Supracolor Soft, a watercolor lead, Pablo, a dry permanent lead and Luminance 6901, a smooth and permanent lead.

### Applied wash

Supracolor pencils are great for applying a soft wash tint on the sheet of paper, creating beautiful base colors.

### Undulating surfaces

Creation of undulating effects using both Luminance 6901 and Supracolor for "wet on wet" and "dry on wet" techniques.

### Shading and volume effects

Luminance 6901 can be applied, without altering the watercolor areas, to create dense coloring of certain parts of the vase to accentuate the volume and intensify shadows.

### Final details

Pablo colored pencils can be used with Luminance 6901 to add more colors, angles and final details.
