

*Discover the wonder of **MUSEUM AQUARELLE** and you'll never look at watercolors in the same way again!*

**MUSEUM AQUARELLE** is an innovative approach to watercolors. Caran d'Ache is always searching for technical innovations and once again it demonstrates its "Swiss Made" expertise in developing color art materials. It has combined a high concentration of extra-fine pigments with excellent water-solubility to create MUSEUM AQUARELLE watercolors in pencil form.

Caran d'Ache offers a new innovation to the art of watercolor painting. The 76 colors of the MUSEUM AQUARELLE line features unmatched water solubility, high pigment density, bright vibrant colors and outstanding lightfastness. It is the top-of-the-range offering extra-fine quality pencils that are perfectly suited to watercolor painting and artistic drawing.

- Soft, extra-fine, watercolor in pencil form
- 100% water-soluble, immediate effect, optimal transparency with no veiled effect
- High pigment density, brilliant and vibrant colors

## Water Brushes from Caran d'Ache

### The Versatile Water Brush for the Watercolor Artist

The Caran d'Ache water brush is practical and easy to use. The large rubber push button and water valve allows the artist to precisely control the water flow. Ideal for sketching on the go, it is a perfect complement to all kinds of watercolor products such as TECHNALO water-soluble graphite pencils, SUPRACOLOR watercolor pencils, MUSEUM watercolor sets, NEOCOLOR II pastels, NEOART pastels, & GOUACHE STUDIO watercolors tubs / tubes. The synthetic tip fibers can be easily cleaned with water by using the pump system to flush water through the fiber tip. Ideal for travelling, art classes and on-the-spot sketching, the Caran d'Ache Museum Aquarelle brush with water reservoir is a useful, modern tool and a nice complement to traditional fine art water brushes.

#### Product information:

## Techniques:

1.) Using light strokes, first apply the pencil or water color pastel.

2.) Then go over with the fine water brush with water and accentuate lines by drawing or coloring entire sections. It can also be used to blend colors.
