

Watercolor Accessories from Caran d'Ache

Water Brushes

The Versatile Water Brush for the Watercolor Artist

The Caran d'Ache water brush is practical and easy to use. The large rubber push button and water valve allows the artist to precisely control the water flow. Ideal for sketching on the go, it is a perfect complement to all kinds of watercolor products such as TECHNALO water-soluble graphite pencils, SUPRACOLOR watercolor pencils, MUSEUM watercolor sets, NEOCOLOR II pastels, NEOART pastels, & GOUACHE STUDIO watercolors tubs / tubes. The synthetic tip fibers can be easily cleaned with water by using the pump system to flush water through the fiber tip. Ideal for travelling, art classes and on-the-spot sketching, the Caran d'Ache Museum Aquarelle brush with water reservoir is a useful, modern tool and a nice complement to traditional fine art water brushes.

Techniques:

1- Using light strokes, first apply the pencil or water color pastel.

2- Then, go over with the fine water brush filled with water and accentuate lines by drawing or colouring entire sections. It can also be used to blend colors.

MUSEUM Palette Aquarelle from Caran d'Ache

117.103

Palette Aquarelle has been developed by Caran d'Ache for an easy application of dry media in order to use the concentrated pigment of water-soluble products like Museum Aquarelle, Technalo, Supracolor Soft, and Neocolor II for watercolor painting. Two in one, this original accessory is made of frosted Plexiglas and has 2 faces with specific textures. The rough face, imitates the texture of paper and allows the pigments to grip the surface and to allow watercolor blending. On the other side, the smooth face is appropriate for all kind of paints such as gouache, acrylic, oil and watercolor. This is an indispensable accessory for professional and amateur artists, art students and school kids. The light weight design and small size make it the perfect water coloring accessory for plein-air artists too!

Technical description
