Gift & Creative Paper Books

Description

PEPIN Gift & Creative Paper Books all contain 4 introductory pages and 12 large sheets of very high-quality paper. These sheets can be easily removed from the books by tearing them along the perforated line. The sheets are folded to fit into the book; when removed and opened they measure 50 cm x 70 cm (19½ inch x 27½ inch; a standard size for gift wrapping papers). Depending on the theme, we have selected a suitable light-weight paper quality. For example, papers with designs in gold, silver or bronze are printed on silky art paper on which the inks show to their best advantage. Designs with an antique or hand-made feel are printed on high-quality creamy paper. PEPIN papers will make your gift package look very special. In addition, our papers are suitable for scrap booking and a variety of other craft projects.

Origami Books

Description

Origami is the ancient Japanese art of paper folding. In the 19th century, paper folding gained popularity in Europe and is now well loved all over the world. Origami is often used decoratively, but it can be practical as well: envelopes, folders and boxes can be created by simply folding a sheet of paper in the right way. The possibilities are endless, ranging from simple shapes for children to play with to very intricate structures.

These books contains 96 beautifully designed origami sheets that can be easily removed. Included are a few folding diagrams and many more can be found for free on the internet.
