To guarantee creative professionals the permanence of their artworks, Luminance 6901 colored pencils combine the highest lightfastness with the smoothness of a permanent lead. Today, this artistic pencil, like no others, offers a new and resolutely modern package in revised assortment quantities. This is an invitation to discover the secret of the light loving colors of Caran d'Ache.

Following the ARTIST range format, an anthracite grey box with bold colorful graphics, the new box now replaces the silver metal tin. The new Luminance 6901 packaging faithfully reflects the characteristics, material and know-how of the Geneva workshops through the expression of product features: bright and opaque colors, waxy texture, and exceptional lightfastness. The Luminance 6901's unique range of 76 colors are shown in the color chart, reference number 100014.655. Luminance colored pencils conforms to ASTM D-6901.

## Techniques:

### Artist's secrets

Nicole Caulfield realizes a technical composition with 3 of Caran d'Ache complementary leads: Supracolor Soft, a watercolor lead, Pablo, a dry permanent lead and Luminance 6901, a smooth and permanent lead.

### Applied wash

Supracolor water tints on the sheet for applying a soft wash pencil on the sheet for applying, creating beautiful base colors.

### Undulating surfaces

Creation of undulating effects using both Luminance 6901 and Supracolor for "wet on wet" techniques.

### Shading and volume effects

Luminance 6901 can be applied, without altering the watercolor areas, to create dense coloring of certain parts of the vase to accentuate the volume and intensify shadows.

### Final details

Pablo colored pencils can be used with Luminance 6901 to add more colors, angles and final details.
